Yes, something more formal is needed.

Was what I sent last week considered to be too loose to discuss? Are you asking me to make this more formal? I can do that next week.

Any feedback on these ideas would help as I revise.

Thanks,
Tom

Working from home today so I'm without my notes but here are some things we could explore.

Ex. 5 Deliberative Process (DP)

Subject: formaldehyde data analysis

Hi Tom and Jennifer,

Now that we have the listing of variables in the NCI dataset, for this week's team meeting, could you talk a bit about possible additional data analyses that could add value to the cancer analyses in the dose-response section? David will want to hear about our progress in our next update meeting.

Thanks, Barbara
